

To prepare your estimate, we will need the following information:

Interior:

- Scope sheets or annotations within your 360° imagery scan(s) detailing the scope of work
- Floorplan sketch with dimensions (hand-drawn is acceptable)
- MICA report (or similar) detailing your equipment usage
- List of specific requirements for the interior scope of work
- Link to your photos and/or video

Exterior:

- List of specific requirements for the exterior scope of work
- Link to your 360° imagery scan
- Floorplan sketch with dimensions (hand-drawn is acceptable)
- Roof satellite report or roof sketch with dimensions (hand-drawn is acceptable)
- Link to your photos and/or video or 360° imagery scan

Supplement:

To prepare your supplement, we will need the following information:

- Original or scanned copy of the adjuster's estimate
- **Note:** If you have an adjuster's estimate and are unsure if it warrants a supplement, you can submit for review at no charge.
- Floorplan sketch with dimensions (hand-drawn is acceptable)
- **Note:** This is needed only for new rooms you want to add to the estimate, unless the adjuster's sketch is inaccurate.
- List of issues with the adjuster's estimate, including what needs to be changed or added (be specific)
